

**FINANCIAL DOCUMENT PROCESSING SYSTEM AND**  
**METHOD OF OPERATING A FINANCIAL DOCUMENT PROCESSING SYSTEM**

**Abstract**

A method of operating a financial document processing system comprises the steps of (a) monitoring a number of operating parameters associated with operation of the system, (b) storing a number of operating parameters of step (a) into a database, and (c) processing at least some of the parameters stored in the database to provide a number of signals indicative of a potential fault condition.
